SOTI®

OPTIMISE WORKFLOWS AND MOBILITY MANAGEMENT
WITH ASCOM MANAGED WORKFLOWS FOR HEALTHCARE

BEST IN CLASS HEALTHCARE ICT AND MOBILITY MANAGEMENT

Ascom offers solutions that close digital information gaps across points of care, creating actionable insight that supports enhanced clinical decision making. These solutions streamline the flow of critical information to help clinicians improve coordination and care delivery. Ascom offers a range of mobile devices for different user needs.

MOBILITY MANAGEMENT MADE EASY

SOTI MobiControl secures and manages devices throughout their entire lifecycle, from deployment to retirement. It controls all aspects of business mobility — tracking physical assets, managing apps and content, and keeping devices and data safe and secure. With SOTI MobiControl, IT can support any OS and troubleshoot mission critical devices in any location, in real time.

SOTI MobiControl and Ascom improve communication and collaboration within hospitals and reduce associated costs simply, effectively.

SOTI CORE FEATURES ON ANDROID

REMOTE CONTROL: help minimize downtime with industry-leading remote view and remote control.

KIOSK MODE: ability to customize user experience with branding and selected apps.

LOCKDOWN: customize device home screen to only show the applications and websites needed for the organization.

DEVICE SOFTWARE MANAGEMENT: Efficient rollout of firmware and in-house enterprise apps & updates.

QUESTIONS TO CONSIDER:

- Do you need to manage your devices?
- Are time and money wasted when a device goes down?
- Is knowing the location of devices important?
- How are you going to control the access to and sharing of information & data on the device?
